

ERGO SAFETY STRIP-CUT PLIER

Solution Series Hand Tool

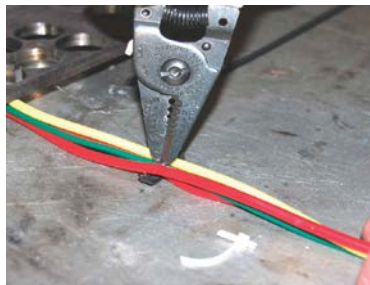

- Razor sharp, precision ground stripping stations consistently and accurately strip insulation without nicking the smallest conductors
- Safety guards slide behind cable ties, straps and lacing on bundles without fear of any invasion into the outer bundle sheathing
- Custom ergonomic cushion grip handles are designed to fit your hand, maximize natural hand contraction motion and are assisted with an auto return spring
- Simple and easy to operate thumb slide locking/unlocking lever
- Works excellent on all cable tie strap widths
- Heat-treated alloy steel jaws and handles are rockwell 53-58Rc
- Heat-treated alloy steel and scissor action cutter provide long life and clean cuts when cutting plastic, copper and aluminum wire
- Precisely strips 12ga.-22ga. Stranded and 10ga.-20ga. Solid copper and aluminum wire
- Designed for electricians, instrument and control technicians, maintenance and repair technicians, assembly personnel, shipping and receiving personnel, installers, home owners and much more!
