AIR FRSH Malodor Counteractants

AIR FRESH will destroy odors by eliminating the source rather than masking them. **AIR FRESH's** refreshing and pleasant scents will last up to 2 days. It is a simple and economical product to use, for your money is not spent on costly and bulky propellants as in aerosol deodorants.

DIRECTIONS FOR USE:

To use simply use a trigger sprayer or hand custom spray unit bottle and spray on upholstery, bed pans, curtains, draperies, in corners of rooms, in closets, etc. Best results are obtained while holding the spray unit about 2 feet from item being sprayed.

IDEAL FOR USE IN:

REST HOMES, HOSPITALS, KITCHENS, TRASH CHUTES,
 STORAGE BINS, TRASH BINS, HOTEL/MOTEL ROOMS,
 RESTROOMS, ETC

INGREDIENTS	CAS NUMBER
ISOPROPYL ALCOHOL	67-63-0
FRAGRANCE	N/A

Additional Information

AIR FRESH is a remarkable product not only because of how well it works but also because it is so versatile. **AIR FRESH** is available in eight unique and refreshing fragrances; **BAMBOO, BLUE SKY MOUNTAIN AIR, CHERRY, PEACH, SPICE, STRAWBERRY, VANILLA, VERY BERRY, LINEN, & CUCUMBER MELON AIR FRESH** is most often used as a space or contact spray to counteract malodors that are either airborne or embedded in carpets, upholstery or other textiles. One special feature of this product is that it is a non-staining formula so **AIR FRESH** can be applied to textiles and carpets without worry of damage. Once applied to the source of the odor **AIR FRESH** chemically counteracts the odor-causing material so that foul smell does not return even after the fragrance is gone. This is especially helpful in removing pet-odors left in carpets and upholstery. **AIR FRESH** is also very effective as an additive to almost any water-based cleaner or paint that is chemically compatible with alcohol. These include; latex paint, carpet shampoo, floor cleaners, all purpose degreaser, insecticides and many glass cleaners. Simply add 1 to 2 ounces of fragrance per gallon and **AIR FRESH** will eliminate odors embedded in the surfaces to be cleaned or painted without any additional effort. This technique is terrific for smoke damage, cooking smells, musty smells from mildewed walls and tobacco smells or just to eliminate the smell from the paint itself. Many of our popular fragrances are also available for wall mounted dispensers. Contact your local **Supercoco Specialty Products** representative for more information.
