CLEANER DESCALER &
DEODORIZER**

**LASTS A MINIMUM OF 1
MONTH**

Product # 7004

**FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.**

BIG-BOY SUPER 21 WATER-ACTIVATED URINAL MAINTAINER

SUPER 21 is a complete urinal maintenance system in a disposable one-piece unit. Each time the fixture is flushed, a pre-measured amount of chemical compounds, enzymes and powerful cleansers are released that descale, de-lime, prevent bacteria growth, deodorize and maintain the fixture and drain lines. **SUPER 21** attacks urinal odors in two ways: by removing the source of the odor, uratic salts that accumulate in the drain, and by dispensing a mild pleasant scent. **SUPER 21** also helps keep the drain lines clear and free flowing by depositing a micro-thin coating that seals and protects, and by releasing an enzyme that digests organic materials. **SUPER 21** lasts an average of 30 days, under normal conditions, due to its unique design that protects the chemical block from excessive erosion caused by rushing water as well as debris dropped into the fixture.

DIRECTIONS FOR USE

Clean the fixture, then place the **SUPER 21** in the fixture, with the exposed face of the chemical block face down. **SUPER 21** should not be placed so that it is completely submerged in water as this will drastically cut down on its effective life. Replace when the chemical block is depleted.

ACTIVE INGREDIENTS:

Didecyl Dimethyl Ammonium Chloride	1.0%
Phosphoric Acid	5.3%
Acid Stable Protease	4.0%
INERT INGREDIENTS	89.7%
Total	100.0%

Additional Information

Restroom maintenance can be an endless task. Battling foul odors, stains, and slow drains are but a few of the difficulties maintenance personnel face day in and day out. **SUPER 21** is the extra help you need. This innovative product not only eliminates bad odors in urinals, but also removes ugly scale and leaves a protective film that prevents build-up. **SUPER 21** maintains drain lines, too. Why spend extra time and money scrubbing fixtures, spraying deodorizers, and treating drains when one **SUPER 21 Urinal Maintainer** in each urinal could do the dirty work for you. Plus, our one-piece design eliminates the

possibility that a chunk of the urinal block might come loose and clog the drain. How long do the urinal blocks you're currently buying really last? **SUPER 21 Urinal Maintainers** provide continuous cleaning for at least 30 days. That's value.
