

BREAK-AWAY

**Penetrating Lubricant
With PTFE**

- Non-Flammable
- 4-in-1 Lubricating & Penetrating Oil
- Displaces Moisture
- Contains PTFE to Inhibit
Rust & Corrosion
- Meets Military Specifications
MIL-C-23411

Product # 1604

**FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.**

BREAK-AWAY Penetrating Lubricant with PTFE
BREAK-AWAY is a non-flammable, 4-in-1 formula that penetrates, lubricates, displaces moisture and resists corrosion. Displaces water and moisture from electrical equipment such as contact points and automotive distributors, machinery parts, guns and equipment. This lubricant is used by factories, truck lines, delivery services, transit systems, schools, machine shops, service stations, airlines, air maintenance shops and general industries. Fortified with PTFE. Contains no ozone depleters. Conforms to Military Specifications MIL-C-23411 for corrosion prevention.

DIRECTIONS: Keep actuator pointed towards dot on valve cup. Remove cap. Direct spray toward area to be treated and spray generously until all moisture is rinsed away. Spraying action will also leave a protective coating to repel moisture. Repeat as needed. Can also be used to loosen rusty nuts and bolts.

INSTRUCCIONES: Mantenga el actuador apuntado hacia el punto en la copa de la válvula. Quite la tapa. Dirija el rocío hacia el área de tratar y rocíe generosamente hasta que toda la humedad sea enjuagada. Esto también dejara una capa protectora para repelar la humedad. Repita según sea necesario. También se puede utilizar para afjar tuercas y tornillos oxidados.

NOTE: This product, due to its chlorinated solvent content, is prohibited for sale and use in the State of California. Other areas may also prohibit its sales and use. Check local and state regulations.

Additional Information

BREAK-AWAY is great for use on motors, wire cable, rusted parts, ignition systems, machine parts, door hinges, locks, nuts and bolts and refrigeration equipment. This non-flammable penetrating lubricant is used by factories, truck lines, delivery services, transit systems, schools, machine shops, service stations, airlines, air maintenance shops, industrial plants, oil rigs, hotels/motels and general industries to lubricate, free rusted and frozen parts and also to displace moisture to extend the life of equipment that is open to the environment. **BREAK-AWAY** contains PTFE which provides microscopic lubrication as well as a protective Teflon barrier to inhibit rust and corrosion. **BREAK-AWAY** is the latest breakthrough in penetrating lubricants. This innovative product cuts grease, displaces moisture, penetrates deeply between parts rusted or seized together and breaks loose the parts. When used for the assembly of parts, **BREAK-AWAY** makes the work go faster and leaves behind a corrosion resistant PTFE coating that does not attract dust and resists moisture.
