CONSULT LABEL AND MSDS BEFORE USING.

**BUFF-IT**

**High Gloss Floor Finish**

**BUFF-IT** is a combination of high quality waxes and acrylics. **BUFF-IT** is designed to provide a very durable and high gloss finish to virtually any floor surface. Black marks created by heavy floor traffic can be easily buffed away. The original high gloss can be enhanced by spray buffing.

**DIRECTIONS FOR USE:**

For best results, completely strip the floor surface and old accumulated wax build-up and soil. Apply one or more generous coats of **BUFF-IT**. Allow to dry. Use a buffing machine to buff to a high luster.

To maintain high gloss, damp mop with **SUPER SUDS** Neutral Floor Cleaner. Recoat traffic lanes as necessary. Occasional spray buffing will restore the original high luster. Do not pour used material back into original container.

**Additional Information**

**BUFF-IT** is one of many high quality floor care products from Superco. This high gloss floor finish provides a durable, skid resistant coating that can be easily maintained. Scuff marks and heavy traffic marks are buffed away with ease and the original shine brought back without excessive labor. **BUFF-IT** can be spray buffed with **SUPER-BUFF** Spray Buff or with additional floor finish. Many floor finishes today are too thin or do not contain the solids necessary for superior buffability. Use **BUFF-IT** for areas that require extra durability and superior gloss or where other products have proved inadequate. **SUPERCO** is committed to bringing maintenance professionals floor care products of the highest possible quality. Contact your local **SUPERCO** representative for information on our extensive line of performance products.
