**COVER-UP ASPHALT** is a unique asphalt based sealer and cover-up that saves time and money when changing or updating road stripes and parking lines. It's simple to use and very effective. No need to grind off the old paint. **COVER-UP ASPHALT** can be used on all asphalt surfaces and will provide a durable cover-up base coat that can be painted over when dry. **COVER-UP ASPHALT** is simple to use and covers with as little as one coat. Ideal for use as an edging primer or sealer for those hard to reach or small areas.

Made in USA

## DIRECTIONS

1. For best results, use when can is between 50°F and 90°F (10°C -32°C).
2. Shake can at least one minute after rattle is heard and occasionally during use.
3. Turn can upside down and place into holder of the Marking Machine. MAKE SURE THAT SPRAY HEAD FITS PROPERLY INTO HOLE. The long side of the spray head must be parallel to the axle. By adjusting the can platform up or down, stripes approximately 2 to 4 inches wide can be applied.
4. Squeeze trigger to activate spray. To avoid any possible "build-up" of paint when starting, it is suggested that the machine be in motion when passing over the starting point.
5. If clogging develops, take the can out of the marking machine. Remove spray head from can and clean orifice in spray head. With can and spray

## Additional Information

**COVER-UP ASPHALT** is an innovative product designed to cover markings, paint and graffiti on asphalt pavement. This unique formula contains asphalt material and can also be used as a tacking primer and crack sealer. Surveyor's marks and construction lines painted on asphalt parking areas and roadways can be unsightly and distracting to drivers. **COVER-UP ASPHALT** is the perfect solution. This convenient aerosol product sprays upside-down in a fan pattern that quickly covers up unwanted markings. The can also fits into standard marking machines to make it easy to cover existing stripes for small traffic pattern changes. Paving crews can use **COVER-UP ASPHALT** as a tacking primer for those hard to reach areas and pothole patching or trenching work. No need to heat up a kettle to perform this small work just use **COVER-UP ASPHALT** with your favorite hot or cold asphalt repair or patching products since **COVER-UP** is an asphalt base material. Contact your local **SUPERCO** representative for information and a demonstration of **COVER-UP ASPHALT**.
