Product # 5176
55 Gallon Drum

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

Recommended for urinals, trash chutes, dumpsters, grease traps, drain lines, porta-toilets, septic tanks, recreational vehicles, sumps, wet wells, drinking fountains, and condensation pans, **CONTROL II MINT** is one product that does many jobs. Use **CONTROL II MINT** to control odors anywhere, even odors due to pet urine that has soaked into carpeting or wood flooring. Use **CONTROL II MINT** on a preventative maintenance schedule to keep drain lines flowing freely. **CONTROL II MINT** really works, use in urinals, toilets, or in mop water to get a handle on uncontrollable restroom odors. For maximum results, ask your **SUPERCO** representative about our "Knight Watch" dispensing system for automatic maintenance of your drains or deodorizing of your trash chutes and dumpsters. Our automatic system saves labor plus eliminates wasted product due to over use.

Authorized by USDA for use in federally inspected meat and poultry plants.

NONE OF THE COMPOUNDS IN THIS PRODUCT ARE LISTED OR PRESENT IN CONCENTRATIONS REQUIRING REPORTING UNDER SARA TITLE III SEC. 313. REFER TO 40 CFR 372.

All fragrances of Superco's "Control" Enzyme/Bacteria products highly concentrated formulation have a bacterial count that contains Anaerobic & Aerobic of over 60 Billion per gallon of live enzyme producing bacteria.

DIRECTIONS FOR USE:

Grease Traps: For traps less than 20 cubic feet capacity, add 4-5 ounces of **CONTROL II MINT** daily by pouring in a sink or pipeline closest to the trap. This should be done at night or when traps are used the least. After adding, flush down with a cup of lukewarm water. For grease traps larger than 20 cubic feet add 8-10 ounces daily using the same procedure.

Sump Pumps: Add 1 pint per 25 cubic feet capacity, for the initial treatment. Thereafter, use 8 oz. per 25 cubic feet each week. This should be poured directly into sump

For Trash Chutes, Urinals and Dumpsters: Attach trigger sprayer and mist surfaces completely starting from the top working to the bottom.

Drain Lines and Down Pipes: Use **CONTROL II MINT** a minimum of 2 times weekly, to a maximum of 4 times depending on the usage of the building. Add **CONTROL II MINT** in amounts listed below, start on

the lowest floor and work up at the rate of one floor per day. Do not treat the same floor twice. When the top floor is reached, continue treatment from the top floor only.

Pipe Size	Dosage	Frequency
2"	6 oz.	2 times per week
4"	10 oz.	2 times per week
6"	14 oz.	2 times per week
8"	18 oz.	2 times per week

This **CONTROL II MINT** should be used after the use of Sulfuric Acid Type Drain Openers. (Flush system completely.)

1. For activating the natural digestive processes to prevent future clogging.
2. As an odor counteractant on Hydrogen Sulfide fumes created from Sulfuric Acid.
3. On a preventative maintenance schedule to insure that your drains flow freely.
