FINISH-B

TERRAZZO COATING & SEALER

FINISH-B Terrazzo Coating & Sealer will give long lasting protection to terrazzo, metal, wood, masonry, concrete, and tile surfaces. **FINISH-B** is a shiny, glass clear floor finish that provides excellent resistance to most chemicals, solvents and corrosive materials. Use **FINISH-B** to keep your beautiful stone floors as good as new year after year. By protecting your tile from the grease and grime that soaks in everyday, normal cleaning routines will always make your floor look like new. Use **SUPERCO's SUPER-SUDS** Neutral Floor Cleaner to maintain beautiful looking floors at all times.

DIRECTIONS FOR USE:

1. Be sure surface is clean and dry. Good surface preparation will insure the longevity of the coating.
2. Apply only one coat. Apply **FINISH-B** in thin, uniform coats with a lambs wool applicator available from SUPERCO. A brush or roller may be substituted if desired.
3. Allow 20 - 30 minutes drying time.
4. Additional coats may be applied for a shinier finish after allowing 24 hours dry time.
5. Maintain the best appearance by wet mopping daily with **SUPERCO's SUPER-SUDS** Neutral Floor Cleaner.

Additional Information

FINISH-B Terrazzo Coating & Sealer is a heavy duty, oil based, permanent finish for many types of floor surfaces. Use **FINISH-B** for floors that are subjected to high foot or wheeled traffic where normal floor finishes or waxes do not hold up to the intense use. This remarkable product provides a high gloss finish, a high level of durability and super weather and chemical resistance. **FINISH-B** can be used indoors or outdoors for years of protection and beauty. Conventional floor finishes can be applied over **FINISH-B** and then maintained as normal and the process of stripping, buffing and replacing these finishes will not adversely affect the **FINISH-B**. Multiple coats of **FINISH-B** can increase the gloss and depth of the finish and the only maintenance necessary to keep the floor looking great is periodic wet mopping. If you are tired of dull-looking terrazzo or floors that constantly need to be buffed, contact your local **SUPERCO** representative and get more information on **FINISH-B** Terrazzo Coating and Sealer.
