HURRICANE II
Cleaner Degreaser with
Bi-Phase Emulsification

- ENVIRONMENTALLY SAFE - BIODEGRADABLE
- POWERFUL WATER SOLUBLE SOLVENT
- FOR REMOVAL OF OIL, GREASE, GRIME, CARBON, SOOT AND OTHER SOILS WITHOUT FIRE HAZARD
- EXCELLENT FOR USE IN KITCHENS, PRINTING, SCHOOLS & TRANSPORTATION INDUSTRIES.

Product # 5142
55 gallon drum only

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

HURRICANE II is effective for cleaning the toughest soils. Grease, grime, carbon, oil, soap scum, soot, you name it, are no match for **HURRICANE II**. Safe on any surfaces, **HURRICANE II** is mild to use and will not etch glass. This product actually turns grease and oil into a biodegradable soap so you do less work! **HURRICANE II** is 2/3 the strength of our regular formula and priced accordingly. Follow our dilution chart below or simply mix **HURRICANE II** to your personal taste to make your job easier.

DIRECTIONS FOR USE:

1 part HURRICANE II to 20+ parts water: For use in steam or pressure washers. For cleaning lightly soiled or waxed floors.

1 part HURRICANE II to 10 parts water: For use as an all-purpose cleaner, on floors, walls, desks, countertops, stainless steel, RV equipment, plastic, vinyl, etc.

1 part HURRICANE II to 3 to 5 parts water: For removing grease and stubborn soils. Use on wheels, white walls, grills, fans, motors, refrigerators, concrete, tile, restaurant equipment, etc.

1 to 2 parts HURRICANE II to one part water: For cleaning brick, ovens, flues, engines, trucks, buses, crude oil, tar, carbon, AC coils, asphalt parking areas, soap scum, dumpsters, trash chutes, etc.

Authorized by USDA for use in federally inspected meat and poultry plants.

 ETHYLENE GLYCOL 102-21-1

Additional Information

HURRICANE II Bi-Phase Cleaner Degreaser is a breakthrough in chemical technology. This water dilutable safety solvent actually turns grease and oil into a biodegradable soap, a process called saponification. **HURRICANE II** is self-cleaning and non-polluting making it the ideal product for environmentally concerned, safety conscious buyers. **HURRICANE II** is formulated with added ingredients to enhance its performance. We added rust inhibitors to protect any ferrous surfaces that may be cleaned with **HURRICANE II** from flash rusting. Special surfactants have been added to increase the cleaning power 10 times and boost performance at a wide range of mix ratios. Compared to most cleaner/degreaser products, **HURRICANE II** is milder in pH and will meet the needs of any safety department. **HURRICANE II** is versatile, this heavy-duty, highly concentrated formula will remove grease, oil, and carbon deposits from equipment, machinery, vehicles, concrete, asphalt, etc., found at oil refineries, service facilities, manufacturing and processing plants, shipyards, commercial buildings, etc. **HURRICANE II** is unequalled in its ability to save labor by speeding up whatever cleaning task is at hand while at the same time allowing the user to take advantage of mix ratios that reduce the end-use cost to pennies a bottle. Use **HURRICANE II** in conjunction with **SUPERCO's Mixing Station System** to maximize economy while providing easy employee access to materials. Ask your **SUPERCO** representative for details on how to get one of these systems installed at your business.
