

LIQUI-GREASE

**Non-Melt
Red Spray Grease
in a Can**

- Hi-Temp Heavy Duty Grease
- Withstands Extreme Pressure
- High Friction Applications
- Resists Temperatures to 450°F
- VOC Compliant in all 50 States

PRODUCT # 4018

**FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.**

**LIQUI-GREASE
NON-MELT RED GREASE SPRAY**
LIQUI-GREASE penetrates and lubricates difficult to reach surfaces, air cures within 2 minutes and sets up to an extra heavy duty grease that holds up under wide temperature extremes to 450°F and extreme pressure. Earth Friendly *LIQUI-GREASE* also withstands water, acids, high pressure and is highly rust resistant. By using *LIQUI-GREASE* your equipment will last longer and longer.

USE ON:
**CHAINS, WINCHES, CABLES,
GEARS, HINGES, BUSHINGS, PINS,
TOOLS, LEVERS, ROLLERS,
SLIDING DOORS AND WINDOWS**

DIRECTIONS FOR USE:
Shake well before using. Remove protective cap. Point opening in spray tip towards area to be sprayed. For hard to reach areas, insert red extender tube into hole in tip. Apply a light coat by spraying in quick, short bursts. Work part to distribute product evenly over entire surface. Spray as necessary to insure full coverage.

Additional Information

LIQUI-GREASE Red Spray Grease in a Can is a remarkable lubricant. This earth friendly product penetrates when applied then sets up as a high temperature heavy grease that is designed to withstand high heat up to 450°F and extreme pressures. It is common knowledge that heavier greases last longer and lubricate better due to the simple fact that they do not evaporate but these greases are generally applied with a special "Zerk" type grease fitting or are pre-packed by hand before installation. However, many critical areas that need constant lubrication do not have special fittings and are not pre-packed with grease. These areas need *LIQUI-GREASE* for maximum protection against friction and wear. *LIQUI-GREASE* is ideal for lubricating equipment that may not get serviced on a regular basis because the long lasting formula will not break down, dissolve or evaporate. *LIQUI-GREASE* is an excellent choice for lubricating remote mechanisms that can be difficult to maintain because of location. The lubrication may only take a minute but getting to the equipment can be troublesome. Some areas in manufacturing plants may require that the production line be stopped for maintenance. In either of these cases the longer the grease lasts the less often someone has to re-lubricate the equipment. *LIQUI-GREASE* is one of many earth friendly aerosol products from Superco Specialty Products all of which are packaged in recyclable cans that make it easy for the end user to help us protect our precious natural resources. Contact your local **SUPERCO** representative for information and a demonstration of *LIQUI-GREASE*.
