Product # 1043

**FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.**

LITHO-LUBE

LITHO-LUBE sprays as a liquid to penetrate working parts, then sets up to a thick heavy duty lubricating grease. Helps flush contaminated lubricant away. White color helps indicate lubricated areas and reduce staining of clothes. Resists temperatures to 350° F. Excellent for automotive, aircraft, marine, farm, shop and industrial applications.

DIRECTIONS FOR USE:

Shake well before using. Works best when applied to surfaces clean of rust or dirt. For pinpoint applications, use separate snorkel tube supplied.

INGREDIENTS	CAS NUMBER
ISOPARAFFINIC HYDROCARBON	64742-48-9
LITHIUM GREASE	N/A
HYDROCARBON PROPELLANT	68476-86-8

Additional Information

LITHO-LUBE Lithium Grease is a high quality aerosol grease with excellent penetrating properties. This remarkable product contains no CFC's and will not adversely effect the ozone layer. After carrier evaporation, the clean white lubricant gels to a thick resistant grease that will not harden, crack or separate. **LITHO-LUBE** is excellent for use in areas where grease could come in contact with clothing.

Areas for use include: automotive fleet maintenance, aircraft assembly & maintenance, marine applications, farm equipment maintenance, industrial shops, water and waste treatment facilities, food processing plants, uniform supply & laundries, engineering departments in hospitals and commercial buildings, seats in sports arenas, automatic doors & gates, grounds care equipment, etc. Superco Specialty Products is committed to providing the best possible performance and quality in each and every product. **LITHO-LUBE** and the rest of our extensive line of specialty lubricants demonstrates this commitment to quality. For more information contact your local **SUPERCO** representative.
