MINTY BOWL
Thick Mint Bowl Cleaner

MINTY BOWL is a deluxe bowl cleaner designed for professional daily use. This product is specially formulated to continue cleaning even after repeated flushing thus preventing water marks and stains. **MINTY BOWL** has a thick consistency that clings to vertical surfaces and under the rim. The multiple cleaning agents combine to give the extra cleaning power required for commercial applications.

DIRECTIONS FOR USE:

For Toilets: Squirt **MINTY BOWL** on inside of bowl surface, swab around entire bowl including under the rim with a swab mop. Wipe around the fixture exterior and seat. The bowl cleaner clings to the bowl surface. Cleaning action continues as **MINTY BOWL** remains in contact with the bowl. After 5 minutes, flush the toilet. Give the bowl a quick mopping with a swab mop to remove any excess. Wipe the exterior with a sponge or rag. Clean toilet tanks as may be required. Allow 5 minutes for the bowl cleaner to do its work, then flush.

For Urinals: Squirt **MINTY BOWL** on the inside surfaces of urinal. Spread around the entire surface with a swab mop. **MINTY BOWL** cleans as it clings to the surface.

Additional Information

MINTY BOWL Thick Mint Bowl Cleaner is the best product available for daily maintenance of urinals and toilets. This advanced formula features 39% active ingredients and a blend of special inhibited acids that will remove all stubborn stains including rust, lime, hard water and mineral deposits. The added spearmint fragrance leaves a fresh smell that lasts all day. Daily use of **MINTY BOWL** will prevent stains from forming on bowl surfaces. No more water rings or ugly stains from corroding pipes. One of the key features of this product is its ability to continue to clean after multiple flushes. After the fixture has been cleaned with **MINTY BOWL**, an ultra thin protective layer is left behind to maintain a sparkling fresh surface flush after flush. For a demonstration contact your local **SUPERCO** representative.
