NO FLY ZONE
INSECT REPELLANT & DEODORIZER FOR DUMPSTERS & TRASH BINS

- 3 lb. size in convenient shaker bottle
- Wide area coverage
- Pleasant scent deodorizes area
- Multiple uses. Effective at controlling biting insects

DIRECTIONS FOR USE: Use in all trash collection bins, cans or dumpsters. When the trash container is empty spread **NO-FLY-ZONE** insect repellent on the bottom of container. Reapply with every 8 to 10 inches of trash added to the container. Repeat after

each service and keep trash can lid closed for best effect. For collection trucks scatter into truck bed and hopper when the container is empty. Do not put in food production areas. Not for use as a pesticide. Use only as directed not for internal use.

Active Ingredients (2.10%): Geraniol: 2.00%, Sodium Lauryl Sulfate: .10%

Inactive Ingredients: (97.90%): Cellulose, Water

ADDITIONAL INFORMATION:

NO FLY ZONE is used to both deodorize as well as to control flying insects such as flies, mosquitoes, gnats, no-see-ums, and fleas. Spreadable **NO FLY ZONE** uses a naturally-derived Geraniol repellent with corn cob as the base. Spreadable **NO FLY ZONE** is biodegradable and does not significantly contribute to landfill volume. Highly effective and lightweight for reduced shipping cost. Fresh citrus fragrance. Independently tested with amazing results.

Protection for Dumpsters and Trash Cans: Use to control flying insects around garbage collection areas such as dumps, dumpsters, curbside pick-up or trash cans. Can be used in latrines and outhouses. Use in these areas to control flies and mosquitoes,

Protection for Yard and Garden: Use to control flying insects around yards, gardens, patios, porches, stairways, trash and compost areas.

Use in these areas to control flies and mosquitoes. Can be used at cookouts and outdoor parties to repel insects in a wide area, Also masks all types of malodors.

Protection for Playground and Grounds: Use under swings, slides and on playgrounds to protect children from biting insects. Also use around

picnic or camping areas to mask odors. Can be used at outdoor events such as picnics, concerts, festivals and cookouts.

Protection for Kennels and Animal Bedding: Use to deodorize as well as to control flying insects around horse and livestock stalls, kennels, and other animal bedding where insects may be a nuisance. Safe for dogs, horses and cattle, Can be layered on top of disposed animal waste and bedding to control flying insects.
