NUT-BUSTER CHERRY
CHERRY SCENTED 4 IN 1 PENETRATING LUBRICANT

NUT-BUSTER CHERRY penetrating oil is a unique aerosol lubricant that displaces moisture, removes grease, lubricates and rapidly breaks down rust. **NUT-BUSTER** has remarkable capillary action for maximum penetration. Excellent for removing parts, fasteners and mating connections, as well as, protecting metal from further corrosion. Silicone

free formula will not interfere with subsequent painting. **NUT-BUSTER** has a pleasant cherry fragrance so it can be used in occupied areas.

DIRECTIONS FOR USE:

Spray liberally directly on area to be treated. Reapply as needed to free metal parts and protect parts from rust and corrosion.

Additional Information

NUT-BUSTER CHERRY is a unique, 4-in-1 penetrating lubricant designed for the professional mechanic. This remarkable formula does the four important things necessary for a penetrant to work well. **NUT-BUSTER** displaces moisture, cuts through grease & grime, creeps and climbs parts by using its strong capillary action and breaks loose seized and rusted parts. Without these capabilities a penetrating lubricant will not work in all situations where parts are rusted, greasy and/or wet. **NUT-BUSTER** not only works better than other penetrating sprays, it also features a pleasant cherry fragrance. **NUT-BUSTER CHERRY** is non-flammable, non-conductive and VOC compliant in all 50 states. This product is ideal for use by all trades including automotive, HVAC, plumbing, carpentry, electrical and facilities. The pleasant cherry fragrance makes it perfect for use in occupied areas indoors such as offices, work shops, classrooms, labs, locker rooms, fitness centers, restrooms, busses, trains, lunch rooms, warehouses and other enclosed areas where traditional lubricants will leave behind a strong offensive chemical odor.
