USE ON CONCRETE OR BRICK SURFACES, PAINTED OR UNPAINTED, BLOCK WALLS, SIDEWALKS, MARBLE, TERRAZZO, WOOD, ETC.

Product # 3147 Quarts
Product # 5147 Bulk

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

PERIMETER is a clear, protective coating that makes removing graffiti a breeze. This durable sealer will not yellow or peel and is ideal for use on almost any surface indoors and outdoors.

DIRECTIONS FOR USE:

Apply the first coat of **PERIMETER** with a brush, roller, or sprayer. On porous surfaces, use sprayer for best results.

Let first coat dry for at least one hour at 50° F or above.

Then apply second coat of **PERIMETER** and let cure for 48 hours. If graffiti reappears before 48 hour drying time, leave it alone until dry, then apply **SUPERCO's GRAFFITI BUSTER** and wipe it off easily.

Always test **PERIMETER** on painted surfaces before applying.

We recommend **PERIMETER** to be used on concrete surfaces painted on unpainted brick, block walls, sidewalks, marble, terrazzo, wood, etc. Also to be used at schools, buildings, municipal colleges, transit companies or anywhere graffiti is a problem.

Additional Information

PERIMETER Anti-Graffiti Coating is the easiest way to deal with problem graffiti. This remarkable product will keep your facility looking the way you want despite the efforts of vandals. **PERIMETER** is a clear protective coating that resists graffiti and allows unwanted markings to be removed with ease. Once applied, **PERIMETER** will not yellow or look dingy regardless of how severe the conditions and is usable inside as well as outside. Using **PERIMETER** is fast and easy. Paint and marks on areas coated with **PERIMETER** clean off easily without touching the paint or surface underneath the coating. The outer layer of **PERIMETER** lifts away from the inner layer taking the graffiti with it then you simply replace the clear coat in the cleaned area. On a painted surface without **PERIMETER**, removing the graffiti will be much more difficult, if not impossible, plus you will have to paint the wall out to the edges to bring back the original appearance. This process can take four to five times the labor and up to ten times the amount of paint. Don't allow your building to get caught without protection put **PERIMETER** on exterior areas, restroom walls and partitions, stairwells, exit doors, elevators, loading docks, trash rooms, etc. Consult your **SUPERCO SPECIALTY PRODUCTS** representative for details on application and coverage.
