

## PROTECTA TABS

**A Microbiocide for Commercial and Industrial Air Conditioning Drip Pans**

- CONTROLS FOULING AND INHIBITS GROWTH OF SLIME-FORMING AND ODOR-CAUSING BACTERIA

- PREVENTS CLOGGING OF CONDESATE PAN DRAINS

**Product:**

**# 7085-M Mini**

**# 7085 Regular (5 ton)**

**# 7085-J Jumbo (10 ton)**

**FOR PROFESSIONAL USE ONLY**  
CONSULT LABEL AND MSDS BEFORE USING.

SEE DIAGRAMS BELOW FOR CORRECT PLACEMENT OF TAB.

**PROTECTA TABS** produce a continuous release of an active ingredient that controls fouling and inhibits the growth of slime-forming and odor-causing bacteria. **PROTECTA TABS** will prevent clogging of condensate pan drains that can lead to water damage caused by overflowing condensate pans.

### DIRECTIONS FOR USE:

Not for heat vaporizing or atomizing type vaporizer/humidifier.

Place **PROTECTA TABS** in air conditioning drip pan. Replace when product inside mesh is completely dissolved.

EPA REG. # 42389-17-52702

EPA EST. # 52702

## Additional Information

**PROTECTA TABS** are a revolutionary concept in algae and slime control for air conditioning and refrigeration equipment. Many problems can arise from algae and slime growth in condensate pans. Problems such as odors being carried from the pans throughout the facility or water damage resulting from condensate overflow due to a clogged drain tube can be the early stages of serious conditions that can lead to **Legionaire's Disease**. Any of these and many more difficulties can be avoided with simple routine maintenance. The placement of **PROTECTA TABS** into the condensate pans of all A/C and refrigeration units will prevent algae and slime growth, eliminate odors and keep drain tubes flowing freely. Consult your **SUPERCO SPECIALTY PRODUCTS** representative for information on a preventive maintenance program that takes advantage of performance products like **PROTECTA TABS**.
