

The YES Company!!

**GOBBLE
PURE**

**100% Natural Soy/Citrus
d-Limonene Drain & Sewer
Line Cleaner & Deodorizer**

- EMULSIFIES AND DISSOLVES GREASE BUILD-UP
- IDEAL FOR USE IN GARBAGE DISPOSALS
- USE IN GREASE TRAPS, SUMPS, LIFT STATIONS, ETC.
- SAFE ON ALL TYPES OF PLUMBING SYSTEMS
- BIODEGRADABLE, NON-ACID, NON-CORROSIVE
- ENVIRONMENTALLY SAFE AND EASY TO USE

Product: # 3023 Quarts
Product: # 5131 Bulk

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

PURE GOBBLE
**100% Natural Soy/Citrus
d-Limonene Drain & Sewer
Line Cleaner & Deodorizer**

PURE GOBBLE is a remarkable blend of grease PURE GOBBLEs. Use regularly to reduce the build-up of grease, soap scum, slime, etc. Controls odor in garbage disposals, around dumpsters, sumps, sewage treatment plants, restaurants, trash compactors and drains. Will not affect bacterial action. **PURE GOBBLE** instantly begins dissolving even the toughest grease build-up. When used as a cleaner, **PURE GOBBLE** destroys even the worst grime while deodorizing at the same time. Dump the dirty mop water down the drain and treat your plumbing at the same time.

DIRECTIONS FOR USE:
DECLOGGING: Use weekly to keep drains free-flowing. Use on drinking fountains, ice bins, condensate pans, dishwasher drains,, etc., to control slime & algae growth in pan or drain. **PREVENTATIVE MAINTENANCE:** 8 oz. weekly to all drain openings and let stand for 10 minutes the flush with warm water. For grease traps under 20 cubic feet (150 gallons equals 20 cubic feet), add 5 oz. daily. For larger traps or clogged drains, pour 12 to 16 ounces into drain.

Additional Information

PURE GOBBLE 100% Natural Soy/Citrus d-Limonene Drain and Sewer Treatment is a unique alternative to the many drain maintenance products on the market today. This revolutionary formula is non-caustic, non-acid and environmentally safe and is safe on all types of plumbing systems including garbage disposals. **PURE GOBBLE** is non-corrosive and can be poured into drains, grease traps or garbage disposals and left for any length of time without adverse effects. The natural citrus solvent that is the base ingredient in **PURE GOBBLE** starts working immediately dissolving the grease and scum that causes most blockages. **PURE GOBBLE** will not affect bacterial action or reduce the effectiveness of enzyme treatments. However, many dish washing chemicals common to restaurants and kitchens will neutralize bacteria and enzyme drain maintainers so use **PURE GOBBLE** where these products have failed. Grease traps, sumps, lift stations and septic tanks are all good candidates for a Knight Watch Drain Maintenance System from **SUPERCO**. This fully automatic injection system dispenses a measured amount of **PURE GOBBLE** each night to insure the best preventive maintenance possible. Consult your **SUPERCO** representative for more information and installation.
