PURGE III METERED INSECTICIDE is an EPA registered aerosol that may be used in commercial food service and preparation areas of milk houses, hospitals, hotels, motels, factories, stores, ships, clubs, restaurants or schools. This blend of natural pyrethrin, piperonyl butoxide and MGK® 264 is classified F-1 by the USDA and is effective on flies, mosquitoes, gnats and small moths. Great for anywhere insects are an annoyance, one can will treat up to 6,000 cu. ft. of air space for 30 days, 24 hours a day.

DIRECTIONS FOR USE:

Locate automatic metered dispenser about 7 feet from floor at a point where normal room ventilation will move the aerosol mist throughout the room. Remove cap and place container in dispenser with collar above metal bar in the dispenser. Approximately 100 mg of product will be dispensed with each spray. With the dispenser set to spray every 15 minutes on a 12 hour schedule each can will last in excess of 60 days (30 days on a 24 hour schedule).

Additional Information

PURGE III is a metered insecticide for use with an automatic metered dispenser. **PURGE III** is manufactured with natural Pyrethrins making it suitable for dealing with both flying and crawling insects. Use **PURGE III** to control flying insects in areas where doors are commonly open and closed frequently. **PURGE III** is one of many products from **SUPERCO SPECIALTY PRODUCTS** all of which are packaged in recyclable cans that make it easy for the end user to help us protect our natural resources.
