INGREDIENTS	CAS NUMBER
HYDROCHLORIC ACID	7647-01-0
HYDROFLUORIC ACID	7664-39-3

RE-NEW is like a pumice stone in a bottle. It works in seconds like no other product available. Just squirt on and rub off. Removes rust and stains immediately. **RE-NEW** should not be used as an everyday toilet bowl cleaner. For daily maintenance, use one of **SUPERCO's** quality bowl cleaners; **MINTY-BOWL**, **SANITIZE** or **PINE-KLEEN**.

DIRECTIONS FOR USE:

This product quickly removes hard water residue, rust stains and soap scum. For best results, remove water from toilet bowl or urinal. Pour 1 to 2 ounces of cleaner over brush or mop and thoroughly clean vitreous areas. Flush bowl. Rinse mop. Do not use on other than vitreous surfaces.

RE-NEW Bowl Ring and Rust Stain Remover is an amazing product that can bring back the life and color of badly neglected bathroom fixtures. At every facility or anywhere there are people there are toilets and restrooms. At each of these locations someone is responsible for the cleaning whether it is a cleaning staff or a tenant. If this job gets neglected for even a few weeks, rust stains and a water ring will form on porcelain and vitreous surfaces like bowls, urinals, troughs and sinks. After months of neglect, white or colored surfaces will turn black. These ugly stains can be impossible to remove with conventional products and ultimately the fixture is replaced and the process starts all over. **RE-NEW** will remove the "impossible" ring or stain from these vitreous surfaces. Bathrooms in rental property and public restrooms are a good example of areas where daily or weekly cleaning is rare. For example, an apartment complex with 500 units may have as many as 650 toilets. At a property like this, the facility management may only get an opportunity to refurbish the unit once every couple of years. If the bathroom fixtures have been neglected over this period, **RE-NEW** is the only way to save the cost and trouble of replacement. Many municipalities often do not have the staff necessary to keep up number of people using the public restrooms and their efforts fall short. **RE-NEW** will restore fixtures to like new condition with one application. Nothing could be easier or more cost effective in this situation than **RE-NEW**. Consult your local **SUPERCO** representative for help with a restroom maintenance program that suits your company's needs.
