Product: #557741 4x1 Gallons

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

REMOVE PLUS+ Uratic Salt Remover safely removes uratic salt build-up in pipes while at the same time controlling offensive odors. REMOVE PLUS+ is a blend of special acids that also remove water scale build-up toilet bowls, urinals and all tile surfaces. REMOVE PLUS+ is safe on all plumbing, including PVC plastic and all metal pipes.

DIRECTIONS FOR USE:

Use 6-8 ounces 3-4 times weekly to control build-up. Use at time of day or night that will allow REMOVE PLUS+ to stay in urinal and pipes and not be flushed right away.

REMOVE PLUS+ Uratic Salt Remover remueve la sal del acido úrico la cual se acumula en las luberias - al mismo tiempo controla malos odores. REMOVE PLUS+ es una mezcla de acidos especiales que tambien remueven las manchas de agua del inodoro (sanitario) y de toda superficie de azulejo. REMOVE PLUS+ no es peligroso para las tuberlas, incluyendo tuberlas de plastico PVC y todas las tuberlas de metal.

INSTRUCCIONES:

Uselo de 6-8 onzas, 3 o 4 veces por semana para controlar la acumulación de suciedad. Uselo en cualquier hora del dia o de la noche en la cual se pueda dejar en el sanitario y en la tuberia sin hachar el agua.

Additional Information

REMOVE PLUS+ Uratic Salt Remover is a specialty product designed for one particular problem. What makes REMOVE PLUS+ so popular is that this particular problem is found in every restroom especially where there are urinals. Any men's bathroom that has been in operation for any length of time will eventually develop an offensive odor emanating from the urinals. Automatic deodorizers and urinal blocks can mask the odor for a while, however, the foul smell somehow keeps getting stronger and stronger. The source of this odor is the build-up of uratic salts in the urinals, toilets and plumbing pipes. In the pipes, this build-up takes the form of a hard, crystalline substance that smells horrible, resists all drain-openers and all efforts to remove the build-up with a snake. REMOVE PLUS+ safely and easily removes this build-up, controls the odor and cleans the fixture. Use this product to clean toilets and urinals periodically and REMOVE PLUS+ will eliminate foul odors, remove the uratic salt build-up and keep restrooms smelling clean. For an easy demonstration of the effectiveness of this product, put an eggshell into a glass containing REMOVE PLUS+ and water, (the eggshell simulates the calcium based build-up), and see how fast the product attacks the shell. To demonstrate the uniqueness of REMOVE PLUS+, try the same test with other cleaners and treatments normally used in restrooms. For more information or a demonstration, contact your local SUPERCO representative.
