Product # 5132 Bulk

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

RENOVATE-B

Heavy Duty Tile and Grout Cleaner

RENOVATE-B is a highly effective product that removes lime and cement stains from quarry tile, brick, block and flagstone surfaces; cleans mosaics, ceramic tile and bleaches grout. All surfaces will be clean and bright.

DIRECTIONS FOR USE:

Pour into non-metal container and apply with a brush, sponge or scrub pad. Wear rubber gloves and protect eyes and face from splatters. Let chemical work for a few moments (DO NOT ALLOW TO DRY ON SURFACE) and rinse thoroughly with warm water. If surface is extremely soiled, a second application may be required. For periodic maintenance, apply cleaner diluted with equal parts water.

To clean stone, brick and slate: Wet surface with water and proceed as directed above. On vertical surfaces, begin at the bottom and work upwards. Large areas should be cleaned in panels, rinsing each one thoroughly before proceeding to the next. Avoid contact with chrome and non acid resistant tubs, sinks and surfaces. If any doubt, test small inconspicuous area first where possible damage will not show.

INGREDIENTS	CAS NUMBER
PHOSPHORIC ACID	7664-38-2
HYDROCHLORIC ACID	7647-01-0

Additional Information

RENOVATE-B is our most effective tile and grout cleaner. This powerful formula is a blend of specially inhibited acids that clean fast with little or no scrubbing necessary. **RENOVATE-B** cleans virtually all types of tile as well as many other stone surfaces. Tile surfaces that have been neglected for years look like new in just minutes when cleaned with this incredible product. After the initial treatment, routine cleaning is performed with a diluted solution that maximizes economy while at the same time reducing the labor spent maintaining these areas. Restroom floors in public facilities, schools, amusement parks, sports arenas and other institutions are good candidates for **RENOVATE-B** because of the high traffic and abuse. Use this innovative product where other products have failed or proved too time consuming to be practical. For a demonstration contact your local **SUPERCO** representative.
