RTV
GASKET MAKER
SILICONE CAULK SEALANT

100% Silicone Rubber
Stays Permanently Flexible
Will Not Yellow Or Fade

• WEATHER-STRIPPING • BODY SEAM SEAL • CAULKS SINKS, TUBS and SHOWERS • SEALS ALL DOORS, WINDOWS and WALLS • EXCELLENT ADHESIVE FOR APPLIANCES, BASEBOARDS, CARPET & TRIM PIECES • SEALS JOINTS IN SHEET METAL DUCTING • PROVIDES DURABLE SEAL FOR MARINE WINDOWS, PORTHOLES, VENTS & CABINS

Product #'s
 1109 White, 1112 Clear
 1116 Blue, 1120 Almond
 1122 Aluminum Grey
 1158 Black, 1119 Red
 1117 School Bus Yellow

FOR PROFESSIONAL USE ONLY
 CONSULT LABEL AND MSDS BEFORE USING.

RTV
GASKET MAKER & SILICONE CAULK SEALANT

RTV is a multi-purpose, single-component adhesive sealant that quickly adheres to most surfaces. It cures in 24 hours to provide a tough, resilient, silicone rubber good for hundreds of applications. RTV can be used for gasketing, sealing, bonding, insulating, caulking, encapsulating, and coating. This flexible material resists shrinking, cracking, weather, ozone, chemicals, moisture, vibration, and extreme temperatures ranging from -85° to +450°F (-65° to +232°C), Hi-Temp Red to 500°F (260°C) continuous and 600°F intermittent exposure. Low-volatile formula recommended for many automotive applications. RTV is UL and NSF approved. Meets FDA Reg. No. 21 CFR 177.2600 and MIL-A-46106 Specs. The equivalent of Dow Corning's 732 and 736, GM, Ford, and Chrysler specs. RTV is great for making replacements of custom gaskets and seals for all types of motors, transmissions, gear housings, pumps, power tools, machinery, etc. It's better than conventional gaskets because it fills in surface irregularities. As a sealer and caulk, use RTV to seal heating and ventilating ducts. It seals cracks and gaps around windows, vents, doors, machinery, truck cabs and trailers, fixtures, lights, walls, bathtubs, sinks, etc. It can be used to waterproof electrical connections and boxes. It seals out water from compartments in machinery as well as holes where wire tubing or refrigeration lines run through walls. As a flexible adhesive, RTV is versatile and easily bonds dissimilar materials. It provides excellent adhesion to clean metal, glass, most types of wood, ceramic, porcelain, painted, and many plastic surfaces. Attach nameplates and signs to equipment, walls, doors, windows, (interior or exterior). RTV bonds gaskets in heating and refrigeration units. As a specialty sealant RTV can be used to seal or coat components exposed to moisture, vibration, shock, certain fuels, oils, solvents, chemicals and corrosives for a long period of time. This product can be used as a formed-in-place gasket where irregular shapes and harsh conditions reject ordinary seals. It is also effective for repairing electrical insulation, sealing insulators and entrance ports to transformers.

FEATURES AND BENEFITS:

- Superior caulking, bonding and sealing qualities
- Easier to use than other gasketing methods
- Resists chemicals, temperature extremes, weather, vibration, moisture and ozone
- Will not sag, run off, or shrink
- Functions in hundreds of applications as a specialty sealant and flexible adhesive
- Excellent non-conducting characteristics
- Low volatile material available, oxygen sensor safe
- Neutral cure available for masonry
- FDA compliant

Additional Information

RTV is a revolutionary type of adhesive/sealant that bonds to almost any surface and stays permanently flexible under severe temperature extremes. This special RTV formula will not shrink or sag under conditions ranging from -60°F to 450°F (600°F for RED) making RTV the ideal sealant or adhesive in areas subject to weather or temperature extremes. Use this product for marine applications such as sealing windows, portholes, body and hull inner seams, cleats and lights as well as tacking down carpets and upholstery. RTV works great on automobiles and recreational vehicles for sealing windshields, weather-stripping, electrical components and exterior lights. Why go to the trouble of sealing these areas every winter just to have the material harden, shrink and crack every summer? Use RTV where these other products have failed and eliminate unnecessary resealing of important areas. RTV is packaged in a unique piston-driven can that provides all the benefits of caulking tubes but does not require the use of a caulking gun.
