RUST BUSTER
EASY-SOAK RUST REMOVER

RUST BUSTER removes rust from metal parts without scrubbing. This safe and effective formula will not harm surfaces including rubber, plastic, vinyl, PVC, aluminum, copper, and brass. **RUST BUSTER** is pH neutral, non-toxic, biodegradable, and non-flammable. Simply clean rusty items to remove dirt and oils before submerging object in the liquid. Rust severity will determine soak time which can range from hours to overnight for stubborn deposits. Objects treated with **RUST BUSTER** can be towel dried or air dried and will resist flash rusting for weeks.

DIRECTIONS FOR USE:

SURFACE PREPARATION: Remove loose rust deposits and clean surface thoroughly to remove dirt, oil, and grease. Fully submerge parts to be cleaned in RustAway and check periodically. Time to remove rust can vary depending on severity of deposits and can range from hours to overnight. Once rust is removed, rinse object in water and towel dry or air dry. **RUST BUSTER** can be re-used until the solution is no longer active at removing rust.

INGREDIENTS

Water
(1-Hydroxyethylidene)-1,
1-Diphosphonic Acid
Sodium Hydroxide
Polymers
Sodium Sulfite

CAS NUMBER:

7732-18-5
2809-21-4
