VINYL, RUBBER,
PLASTICS, ENAMEL,
LEATHER, WOOD, PAINT,
FIBERGLASS,
STAINLESS STEEL
NON-FLAMMABLE

Product: # 7072

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

SAVE TOWELS Micro-Emulsion Protectant and Conditioner is formulated to penetrate and protect vinyl, plastic, rubber, upholstery, finished wood, metals, leatherette and many similar materials. Original beauty and luster can be restored to tires, vinyl tops, dashboards, seats, luggage, furniture, sporting goods and equipment, handbags, jackets, radios, TV's, cameras, stereos, underwater equipment, airplanes, boats, motorcycles, typewriters, book bindings, door and window molding, and floor mats. **SAVE TOWELS** prevents further damage from moisture, ozone, ultraviolet rays and oxidation which can cause dulling and embrittlement.

DIRECTIONS FOR USE:

Prior to application, surface should be cleaned with an appropriate detergent material. **SAVE TOWELS** should not be applied over grease, oil, dirt or other soils. Wipe surface to be cleaned with towel and allow to penetrate for 2-3 minutes. Using a clean, dry, lint-free cloth, wipe away excess and buff surface to gloss. Repeat application periodically to extend protection and beauty. For best results, the initial application should consist of two coats with **SAVE TOWELS**. Discard after use. NOTE: Do not use on floors or fabrics.

INGREDIENTS	CAS NUMBER
POLYDIMETHYLSILOXANE	63148-62-9

Additional Information

SAVE TOWELS have a concentrated blend of poly and silicone ingredients that provide a tough protective film which buffs to a lustrous shine. The unique penetrating action of **SAVE TOWELS** allows the product to soak deep into pores restoring color and providing protection beneath as well as on the surface. This advanced formula contains no harsh solvents or damaging petroleum distillates found in "armor" type products. **SAVE TOWELS** feature a micro-emulsion protectant and conditioner that restores pliability and color to dried out and faded vinyl, leather, wood, plastics and many other surfaces. For automotive use, **SAVE TOWELS** not only enhances the beauty of the vehicle but are usable on every surface except glass so you spend less time fumbling with three or four different products when all you need is one. Ultraviolet rays from sunlight can be severely damaging to vinyl, wood and leather, just to name a few, **SAVE TOWELS** not only restores damaged areas but also protects them from future damage from a variety of sources. **SAVE TOWELS** are so versatile that no maintenance department should be without them.. Use **SAVE TOWELS** instead of furniture polish, stainless steel polish, vinyl & leather protector, plastic & fiberglass cleaner/polish, tire dressing or any "armor" type product. **SAVE TOWELS** are ideal for use on expensive leather seats found in luxury automobiles and furniture because this formula will prolong the life of the material not shorten it as with other products.
