 CONSULT LABEL AND MSDS BEFORE USING.

**SOLIDIFY**

Turns Unwanted Paint into a Disposable Solid.

Superco's **SOLIDIFY** offers an environmentally safe way to dispose of old latex paint. Using up all of your paint is always the best option, but that does not always happen. Most landfills will not accept latex or acrylic paint in liquid form so you need to dry-out your unused paint which takes a long time. Save time and money by using Superco's **SOLIDIFY** to turn your unused paint into a disposable solid in minutes! It's also great for quickly containing job site paint and other liquid spills.

- Non toxic • Environmentally Friendly • Non-regulated by the U.S D.O.T. • Absorbs unwanted paint into a disposable solid
- Saves disposal costs • No waiting for excess paint to dry
- One container will solidify up to 110 gallons
- Just add Superco's Paint Solidifier to paint, stir and discard
- For Latex and Acrylic based paints • Contains job site spills

**DIRECTIONS:**

1. Add 1 to 2 scoops of crystals per gallon of waste or spilled latex paint. One cup of water may be added to thin paint for ease of use.
2. Stir paint until solid. Scrape spills into a pile until solid.
3. Dispose of as regular garbage in accordance with local regulations.

**INGREDIENTS**

CRYSTALLINE SILICA QUARTZ  
 CROSSLINKED SODIUM POLYACRYLATE

**CAS NUMBER**

14808-60-7  
 9003-04-7

0	HEALTH
0	FLAMMABILITY
0	REACTIVITY
	PROTECTION

**DISPOSAL NOTICE:** Solidified paint must be disposed of in compliance with Local, state, and federal regulations. The manufacturer does not recommend disposal procedures.

**Additional Information**

Leftover paint has always been a disposal dilemma. One cannot just toss it into the trash and be done with it. **SOLIDIFY** is the answer. **SOLIDIFY** is a natural earth product that solidifies Latex & Acrylic based paints into a form that is acceptable to just throw in the trash. **SOLIDIFY** is non-toxic, environmentally friendly, simplifies disposal and decreases disposal costs. Each pail of **SOLIDIFY** will solidify up to 110 gallons of paint. For more information on **SOLIDIFY**, contact your local Superco Specialty Products representative.
