Additional Information

SUPER GLUE Industrial Strength Adhesive is a breakthrough in "Super-Glue" type products. This truly incredible formula bonds surfaces with a shear strength of up to 3000 PSI. This means that it would take in excess of 3000 pounds per square inch to break the hold of **SUPER GLUE**. With a wide temperature range of -65° F. to 175° F. This versatile adhesive can be used in all types of climates and on a variety of surfaces. Packaged in an easily reclosable bottle, **SUPER GLUE** is more convenient to use than conventional "instant" adhesives. This product is a "must have" item for any engineering department, maintenance shop, vehicle repair, housekeeping or facility maintenance department. For a demonstration of this remarkable product contact your local **SUPERCO** sales representative.
