CONSULT LABEL AND MSDS BEFORE USING.

**SUPER STICK**  
**MULTIPURPOSE**  
**PRESSURE SENSITIVE ADHESIVE**

**SUPER STICK** is a strong all purpose, waterproof adhesive for bonding a multitude of surfaces together. **SUPER STICK** dries quickly leaving a flexible seal. A versatile fan spray tip makes for easy application. This product does not contain methylene chloride. Can be used on paper, leather, vinyl, fabric, sponge, rubber, polyethylene sheets and much more.

**DIRECTIONS FOR USE:**

Shake well before using. Hold can 6 to 8 inches from surface and spray evenly. For permanent bonds, spray both surfaces to be joined. Allow about one minute for surfaces to become tacky. Bond surfaces together by applying firm pressure. For temporary bonds, spray only one surface with adhesive and follow directions outlined above. Clean spray tip with solvent if build-up occurs on tip.

**Add it ion al I n f o r m a t i o n**

**SUPER STICK** Spray Adhesive is a versatile product designed to perform well on a variety of surfaces indoors and outdoors. One of **SUPER STICK**'s most unique features is that it can be used as either a permanent or temporary adhesive. As a temporary bonding material, this product works similarly to a how a "Post-It Note" works. The adhesive stays tacky and the item sprayed can be moved, removed or repositioned easily. This temporary bond is achieved by only spraying one mating surface instead of both sides. This makes using **SUPER STICK** as either a temporary or permanent adhesive fast and easy. We package this product in a special aerosol can that features a three-way adjustable fan-spray valve for applying adhesive to any size area. Some popular uses for **SUPER STICK** include; Wallpaper repair, baseboards, automobile carpeting, door panels and headliners, laminating countertops, posting signs and banners, weather stripping, etc. Our unique formula contains no methylene chloride and no CFC's. For a demonstration contact your local **Superco Specialty Products** representative.
