URINAL SENTRY

Urinal Sentry's new chemistry cleans out build up calcium deposits in drains and prevents new build up. *Urinal Sentry's* powerful malodor counteractant (deodorizer) controls odor. This safe and effective cleaner, descaling agent and deodorizing disk works to clean, unclog and freshen urinals with every flush. Calculus deposits are broken down, pipes are cleared, stains are removed, and foul odors are eliminated.

EASY TO INSTALL

Additional Information

Urinals can be one of the most difficult restroom items to deal with. Urine calculus deposits, formed by the reaction of potassium in urine with phosphoric acid and carbon dioxide, attach to urinals, drainage pipes, and filters, and cause offensive odors, blocked drainage pipes, and dirty urinals. **URINAL SENTRY** was designed to be the easiest and most effective way to deal with urinal issues. **URINAL SENTRY** is a urinal descaler, deodorizer, and cleaner that will effectively clear drainage pipes and prevent future calculus build-up, neutralize urinal odors and clean urinal walls and bowls. **URINAL SENTRY** contains a cleaner/descaler made up of *sulfamic acid*, specifically designed to clean ceramic and metal, mixes with flushing water, cleaning the urinal wall, pooling in the bowl to clean the grate, and then washing through the pipes to remove urine calculus deposits. **URINAL SENTRY** also contains a green plasticized gel disc emits a light botanical scent to immediately eliminate offensive urinal odors. For more information on **URINAL SENTRY**, Contact your local Superco Specialty Products Representative.
