Additional Information

W.S. WASH Windshield Washer Concentrate is designed to perform well even under extreme conditions. This product cleans and quickly cuts through grease, road grime, dirt, bugs, etc., dries streak-free in seconds and conditions wiper blades. Safety while on the road is the reason for using **W.S. WASH**, so to consider any product with inferior performance would be unsafe. The ultra fast cleaning and drying characteristics of this unique product are the main reason for its popularity. While driving or operating a vehicle, the amount of time your vision is impaired either by dirt and grime or by the suds generated by your washer solution can be critical to your safety and the safety of others. Don't settle for less than **SUPERCO** quality for this important product. Contact your local representative for a demonstration.
