Recommended for urinals, trash chutes, dumpsters, grease traps, drain lines, porta-toilets, septic tanks, recreational vehicles, sumps, wet wells, drinking fountains, and condensation pans, **CONTROL** is one product that does many jobs. Use **CONTROL** to control odors anywhere, even odors due to pet urine that has soaked into carpeting or wood flooring. **CONTROL** instantly eliminates all malodors on contact while continuing to digest and liquefy organic wastes. Use **CONTROL** on a preventative maintenance schedule to keep drain lines flowing freely. **CONTROL** really works, use in

urinals, toilets, or in mop water to get a handle on uncontrollable restroom odors. For maximum results, ask your **SUPERCO** representative about our "Knight Watch" dispensing system for automatic maintenance of your drains or deodorizing of your trash chutes and dumpsters. Our automatic system saves labor plus eliminates wasted product due to over use.

**Now available in 6 fragrances.

- 3002VB Control Very Berry Quart
- 5012VB Control Bulk - Very Berry - (5012VB41 - Gallons)

DIRECTIONS FOR USE:

Grease Traps: For traps less than 20 cubic feet capacity, add 4-5 ounces of product daily by pouring in a sink or pipeline closest to the trap. This should be done at night or when traps are used the least. After adding, flush down with a cup of lukewarm water. For grease traps larger than 20 cubic feet add 8-10 ounces daily using the same procedure.

Septic Tanks: Add 1 pint per 25 cubic feet capacity, for the initial treatment. Thereafter, use 8 oz. per week. This should be poured directly into toilet and flushed. If septic tank has become clogged and odorous, add 1 gallon of product directly into the tank through the manhole.

Recreational Vehicles and Boats: Add 2 oz. per gallon of water in hold tank. Thereafter use 1 oz. per 50 gallons of tank capacity. Then use one pint per week for maintenance.

For Trash Chutes, Urinals and Dumpsters: Attach trigger sprayer and mist surfaces completely starting from the top working to the bottom.

Drain Lines and Down Pipes: Use product a minimum of 4 times depending on the usage of the building. Add product in amounts listed below, start on the lowest floor and work up at the rate of one floor every day. Do not treat the same floor twice. When the top floor is reached, continue treatment from the top floor only. Use 2 times per week.

Pipe Size	Dosage
2"	4 oz.
4"	8 oz.
6"	12 oz.
8"	16 oz.

This product should be used after the use of Sulfuric Acid Type Drain Openers. (Flush system completely.)

1. For activating the natural digestive processes to prevent future clogging.
2. As an odor counteractant on Hydrogen Sulfide fumes created from Sulfuric Acid.
3. On a preventative maintenance schedule to insure that your drains flow freely.
