1058 Aerosol
3036 Quarts # 5108 Bulk
7054 50:1 Pints # 5078 50:1 Bulk

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

DAZZLE Glass Cleaner is easy to use and smells refreshing. This fast and easy to use glass and hard surface cleaner and polish quickly dissolves deposits of grease, dirt, smoke film, finger marks, lipstick, crayon, smudges and oil. **DAZZLE** is available in a ready-to-use formula called **DAZZLE R.T.U.** or in a 50:1 concentrate for the ultimate in economy. The **R.T.U.** formula is packaged in aerosol cans, quarts, gallon and bulk containers while the 50:1 concentrate is available in pints, gallon, and bulk containers.

DIRECTIONS FOR USE:
Apply premixed or properly diluted solution as a fine mist or foam with hand sprayer from a distance of approximately 8 to 12 inches. Wipe clean then polish with clean dry cloth or paper towel.

Additional Information

DAZZLE Glass Cleaner is a revolutionary product. Advanced formulation gives **DAZZLE** exceptional cleaning ability while never streaking. Virtually all glass cleaner will leave spots if over-sprayed areas are not repolished. **DAZZLE** leaves no residue and will dry spot free even if over-sprayed areas are left untouched. This remarkable benefit means that large glass areas can be cleaned much faster with **DAZZLE** than with any other product. **DAZZLE** leaves a pleasant "fresh and clean" smell and is safe to use on virtually any surface. A variety of packaging allows the user to choose between the performance of an aerosol foam, the convenience of ready to use quart bottles or premixed bulk, or a concentrate available in multiple sizes depending on your needs. **DAZZLE-A** aerosol spray foam is ideal for windows, mirrors and automobiles because the thick foam clings easily to vertical surfaces. **DAZZLE R.T.U.** combines the economy of a bulk formula with ready to use convenience. Use **DAZZLE 50:1** for maximum economy without sacrificing product quality. Properly mixed our concentrate will out perform conventional ready to use formulas at a cost of pennies per bottle. One **DAZZLE 50:1 PINT** makes 5 gallons of glass cleaner while one gallon makes 51 gallons and can be mixed in a handy 5 Gallon Portion-Pak Dispenser jug or an empty 55 gallon drum both available from **Superco Specialty Products**. Ask your local sales rep for information.
