FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

DETERRENT

DETERRENT has been specially designed in using only the best essential oils of citronella. To ward off all flying and stinging insects while outdoors.

DETERRENT when shaken, turns gel into a sprayable, semi-liquid, that once on the material, will restore into gel form that does not run or drip! **DETERRENT** dries and will not attract dust, dirt or smear! This time released gel evaporates allowing a pleasant citronella scent to linger. Note that temperature, humidity and wind will alter effectiveness. More than one application should be applied depending on the material on which it is sprayed.

PACKAGING:
DETERRENT 32 OUNCE = 1 QUART

DIRECTIONS FOR USE:

Shake **DETERRENT** well and liberally spray where needed. The mist from the trigger sprayer will contact the surface and immediately turn into a gel. This allows for precise application with no run down or mess. Use on Picnic Tables, Chairs, Benches, Walls, Door Frames, Tent Flaps, Rv's, Boats, Outdoor Table Legs, Window Screens, Garbage Cans, Dumpsters, Portable Toilets, and other areas where insect repelling is desired.

INGREDIENTS:

Citronella 3%
Inactive Ingredients 97%
