ELIMINATOR

Enzyme / Alive Bacteria Odor Eliminator

ELIMINATOR Active Odor Eliminator is a unique & different product designed to counteract organic odors from human and animal waste, urine, body odors and fecal matter. This remarkable formula uses natural bio-enzyme power to digest organic wastes and eliminate the odors they generate. ELIMINATOR features a special inverted spray valve to make applying the product quick and easy. ELIMINATOR has a clean, fresh fragrance that will last for an extended period of

time while completely eliminating the foul odors. Use ELIMINATOR in restrooms, kennels, trash bins, fleet automobiles, kitchen areas, floor drains, veterinary clinics, hospitals, schools, etc. Ideal for use on floors, carpets, upholstery, trash cans, walls, behind toilets & urinals, virtually any surface where organic waste or by-products generate foul odors.

DIRECTIONS FOR USE:

CARPET & UPHOLSTERY: Prior to use on carpet and upholstery, spray product in an inconspicuous spot to ensure textile is unaffected. After cleaning carpet and while surface is still damp, spray entire area to be treated liberally then allow to dry.

SURFACE ODOR CONTROL: Clean area completely before treatment. Spray product liberally into trash bins or on walls and surfaces where organic odors are a problem. Be sure to thoroughly wet entire area for best results. Allow to dry.

NOTE: Do not spray on floors in traffic areas where a slip hazard may result without taking appropriate precautionary measures and using warning placards.

Additional Information

ELIMINATOR is a unique and different product designed to eliminate the most obnoxious and foul odors. Odors from animal, human and organic waste, urine and fecal matter are by far the most offensive and sickening odor and surprisingly commonplace. Public restrooms, portable toilets, alleyways, R.V parks, schools, hospitals, mortuaries, trash areas, kennels, veterinary clinics are just a few places where these odors can be a problem. Similarly, apartment complexes and hotels regularly find carpets and upholstery that have been ruined by body odors, pet stains and other offensive smelling soils. ELIMINATOR is the quick and easy method for eliminating these foul odors at the source. Using nature's own power, ELIMINATOR uses a bio-enzyme combination that actually neutralizes the odor causing material and leaves a pleasant, fresh fragrance. This remarkable product features an upside down spray valve to make application simple and convenient. For more information and a demonstration of ELIMINATOR contact your local SUPERCO representative.
