**EXPIRE**  
High-Power Spray  
Kills Wasps & Hornets

- CAN BE USED EFFECTIVELY INDOORS FOR NESTS IN ATTICS.
- IDEAL FOR USE OUTDOORS ON WASP AND HORNET NESTS.
- IDEAL FOR POWER POLES, LAMPPOSTS & ELECTRICAL BOXES.
- NON-CONDUCTIVE UP TO 40,100 VOLTS
  - NONFLAMMABLE
- CONTAINS NO CFC's OR ANY OZONE DEPLETING SUBSTANCES.

**Product # 1012**

**FOR PROFESSIONAL USE ONLY**  
CONSULT LABEL AND MSDS BEFORE USING.

**EXPIRE**  
**High-Power Wasp & Hornet Spray**  
Non-Conductive up to 40,100 Volts.

**EXPIRE** Wasp and Hornet Spray is a high-discharge aerosol product containing a powerful blend of today's most advanced insecticides. **EXPIRE** has fast knockdown as well as residual power to keep killing for weeks. Kills bees, wasps, hornets, yellow-jackets, etc. while they are sleeping in their nests. High discharge valve design fires a stream up to 25 feet. This nonconductive formula makes **EXPIRE** ideal for use on power-poles, breaker boxes, and outdoor electrical junctions without shorting live circuits.

**DIRECTIONS FOR USE:**

**For control of wasps and hornets:** Apply after dark when all the insects have returned to the nest. Aim valve opening at nest and depress button, soaking the nest with the spray. Repeat as necessary

**Additional Information**

Wasps, hornets and bees are perhaps the most troublesome and to many the most frightening pests on Earth. Controlling this type of insect has always been very difficult. Not any more. **EXPIRE** combines a fast knockdown insecticide with a residual formula to kill bees and wasps in the nest while they sleep. While many of the hives population may be away for days at a time **EXPIRE's** residual power keeps working to kill them when they get home. This high-discharge aerosol product shoots a stream up to 25 feet allowing you to work from a safe distance. **EXPIRE** is nonconductive up to 40,100 volts making it ideal to use where hives have been formed around power boxes and fixtures. No need to pay excessive costs to have nests removed by outside contractors, simply spray them with **EXPIRE** and after a while you can remove them yourself with no problems.

**ACTIVE INGREDIENTS:**  
Tetramethrin [(1-Cyclohexene-1, 2-dicarboximido) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate]..... 0.200%  
  
3-Phenoxybenzyl-(1rs, 3rs; 1rs, 3rs)-2,2-dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate..... 0.125%  
\* INERT INGREDIENTS:.....99.675%  
\* Contains petroleum distillate.
