## SHIELD

A BARRIER BETWEEN YOUR SKIN AND PAINT, INK, DIRT AND GRIME. LETS YOUR SKIN BREATHE THROUGH A COLORLESS SHIELD.

### USED BY:

Janitors, mechanics, plumbers, painters, printers, servicemen, all maintenance workers, and anyone that gets their hands in dirt.

### DIRECTIONS FOR USE:

Spray a generous amount on clean hands. Rub hands together. The foam will disappear and reach down into pores to protect against dirt. Make sure get under your fingernails. To remove, rinse off with soap and water.

### INGREDIENTS

## Additional Information

**SHIELD** Skin Barrier Cream is a convenient aerosol product designed to help all workers in industry, commerce, institutions and laboratories avoid skin problems due to contact with various irritants. This unique product dries fast and is colorless, non-greasy and cream smooth. An invisible protective cream which shields the skin from contact with acids, salts, corrosive alkalis, epoxies and other water or oil soluble chemicals. **SHIELD** forms a highly protective barrier between skin and dirt, oil, grease, solvent, paint, resins, tar, ink and shop grime. **SHIELD** is used by mechanics, craftsmen, servicemen, janitors, plumbers, painters, printers and various other employees to protect themselves against itches, blisters and chemical burns caused by various work related materials. This product fits well into any companies work safety plan. Many of the side effects caused by working with harsh materials can be avoided easily with **SHIELD**. For more information or a demonstration of **SHIELD** contact your local **SUPERCO SPECIALTY PRODUCTS** representative.
