CONSULT LABEL AND MSDS BEFORE USING.

**SOY BUSTER**  
Soy Based Vandalism Graffiti Remover

**SOY BUSTER** is an extremely effective graffiti remover. Biodegradable and made from a renewable natural resource...Soy Beans! **SOY BUSTER** Graffiti Remover works extremely well on all hard surfaces such as; lexan, glass, brick, brass, chrome, marble, tile, etc. **SOY BUSTER** also removes paint, ink, tar and marking pen from vinyl seats, lexan or any surface susceptible to solvent damage.

**USE ON:**  
Buses, trains, bridges, road signs, walls, etc., **SOY BUSTER** can be used on all hard surfaces. Excellent to remove scuff marks from racquetball court walls. You should always pre-test an inconspicuous area first such as asphalt, tile, painted surfaces and some soft plastics.

**DIRECTIONS FOR USE:**  
Shake well before using. Pre-test on hidden area as indicated above. On smooth surfaces, spray directly on surface, allow **SOY BUSTER** to react with markings, then wipe away. On rough surfaces, spray directly on surface and use brush to remove markings then dry with cloth.

## Additional Information

**SOY BUSTER** Graffiti Remover is a very unique product. This advanced formula has the power normally associated with harsh chlorinated solvents, but without the adverse and unpredictable results common to many of these products. **SOY BUSTER's** soy based cleaners make it safe to use on many surfaces that would not be compatible with conventional products. Many of these areas are popular for vandals and graffiti artists, however, as much damage can be done using the wrong cleaner. A good example are road signs. The reflective coverings of many road signs are made of a plastic material that is adversely effected by most graffiti removers. **SOY BUSTER** is a fast and easy solution to vandalism on road signs and will not damage or dull the reflectivity of these signs. Use **SOY BUSTER** to remove ink, pen marks, tape, glue, tree sap and graffiti from Plexiglas windows and shields and vinyl and leather seats found at schools, ice hockey rinks, racquetball courts, on golf carts, in school buses, sports arenas, playgrounds, trash receptacles, etc. Use **SOY BUSTER** where other products have failed or proved to be damaging to the vandalized surface. Contact your local SUPERCO representative for information on all our graffiti abatement products and how they will benefit your company.
