Additional Information

SUPER SEAL T Lifetime Silicone Sealant is a high quality product designed for use where the best possible appearance and durability is expected. **SUPER SEAL T** is the fastest and easiest way to fill cracks and joints prior to painting. Most caulking materials cannot be painted over and will shrink and crack in a matter of months. **SUPER SEAL T** is designed for ultimate longevity and can be painted over within 30 minutes. When used as a filler prior to painting, **SUPER SEAL T** will not slow down the job and the finished results are superior to other types and brands of sealants. As an interior or bathroom caulk, this product handles beautifully allowing the user to spread perfect beads and leave a job well done. Compare **SUPER SEAL T** to any common caulking and you will see the difference for yourself. If the job is important use only the best materials available like **SUPER SEAL T** from **SUPERCO**.
